Keynote speech: Fintech and Blockchain Paths in Rebooting the Global Response to the Sustainable Development Goals after COVID-19.

As we embrace the new normal of the post Covid-19 era, Prof. Aysan explores how to reboot global response to accelerate the SDGs in times of uncertainties, and most importantly how to turn the recovery into an opportunity to build back better and more resilient economies. Prof. Aysan's keynote speech addresses the case of Fintech and blockchain prospects and attempts to uncover the following questions: how does FinTech Disrupt the Financial sector? What is the Impact of COVID19? Does it provide challenges or opportunities for the Fintech and blockchain applications? What are the Fintech and artificial intelligence prospects and strategies for the developing countries? What is the future of banking and Fintech?
